**Subject: CTO Approval from Haryana State Pollution Control Board- Capacity addition**

**Ref: Pursuant to regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015**

Dear Sir,

We are pleased to inform that we have obtained CTO for eWaste recycling with capacity of 33500 MT P.A. at our Palwal plant from Haryana State Pollution Control Board. Earlier, we had capacity of 16500 MT at Palwal and 5200 MT at our Faridabad plant. With a view to improving Operational Efficiency and our continuous endeavour for capacity expansion, we decided to move most of the bulkier recycling operations from Faridabad to Palwal to bring in better controls. With this approval our current total capacity is increased from 43460 MT to 55260 MT and our plan to reach cumulative capacity of 68000 MT will now go upto more than 80000 MT after the commissioning of Hyderabad plant in March 26.

We are very excited after CTO approval as increased Capacity and operations under one roof will benefit us immensely in future.

Our Faridabad plant will henceforth focus on refurbishment of IT assets and extraction of higher value metals.

Please take on record the above information.

Thanking You,

For and on behalf of

**Namo E-waste Management Ltd.**
